

Claims:

1. A method of treating an ocular allergy in a subject consisting of administering to the eye surface of the subject, an effective concentration of ketotifen and an effective concentration of pheniramine in a pharmaceutically acceptable carrier.
- 5 2. The method of claim 1 wherein the effective concentration of ketotifen is between 0.04 % and 0.06%.
3. The method of claim 1 wherein the effective concentration of pheniramine is between 0.4% and 0.6%.
4. The method of claim 1 further consisting of artificial tears.
- 10 5. A pharmaceutical composition consisting of an effective concentration of ketotifen and an effective concentration of pheniramine in a pharmaceutically acceptable carrier.
6. The pharmaceutical composition of claim 5 wherein the effective concentration of ketotifen is between 0.04% and 0.06%.
- 15 7. The pharmaceutical composition of claim 5 wherein an effective concentration of pheniramine is between 0.4% and 0.6%.
8. The pharmaceutical composition of claim 5 further consisting of artificial tears.
9. A method of treating an ocular allergy in a subject consisting of administering to the eye surface of the subject, an effective concentration of azelastine and an effective concentration of antazoline in a pharmaceutically acceptable carrier.
- 20 10. The method of claim 9 wherein the effective concentration of azelastine is between 0.04% and 0.06%.
11. The method of claim 9 wherein the effective concentration of antazoline is between 0.4% and 0.6%.
- 25 12. The method of claim 9 further consisting of artificial tears.

13. A pharmaceutical composition consisting of an effective concentration of azelastine and an effective concentration of antazoline in a pharmaceutically acceptable carrier.
- 5 14. The pharmaceutical composition of claim 13 wherein an effective concentration of azelastine is between 0.04% and 0.06%.
15. The pharmaceutical composition of claim 13 wherein an effective concentration of antazoline is between 0.4% and 0.6%.
16. The pharmaceutical composition of claim 13 further consisting of artificial tears.
- 10 17. A pharmaceutical composition comprising an effective concentration of azelastine and an effective concentration of a short-acting anti-histamine agent.
18. A pharmaceutical composition comprising an effective concentration of ketotifen and an effective concentration of a short-acting anti-histamine agent.
19. A pharmaceutical composition comprising an effective concentration of pheniramine and an effective concentration of a long-acting anti-histamine agent.
- 15 20. A pharmaceutical composition comprising an effective concentration of antazoline and an effective concentration of a long-acting anti-histamine agent.
